Aquila

Aquila Sports CCT1500 System

Experience targeted relief for sore muscles, swelling, and inflammation with our all-in-one cold-compression system. This state-of-the-art product features customizable sequential compression boots and cold sleeves that connect to a control unit for convenient and easy use. The boots promote healthy blood flow and reduce muscle fatigue, while the sleeves use cold therapy to minimize pain and promote faster recovery times. With its compact design, this system is perfect for use at home, at the gym, or on the go. Whether you're an athlete or someone looking to promote overall wellness, our cold-compression system is a highly effective and versatile solution.

Set Includes:

- Control Unit
- Garments: Selected Attachment(s)
- Hoses
- Power Adapter

Features:

- Customized compression levels (20-150mmHg)
- Cold and Compression modalities can be used simultaneously or independently
- Lymphatic Draining and Constant Pressure modes/settings (users can use all or select chambers for compression)
- Water-circulating pump for cold or heat therapy options
- Single or Dual Limb capability (for air); up to two users for water
- Easy to drain the water from the control unit
